AERA STRUCTURE

ANKER

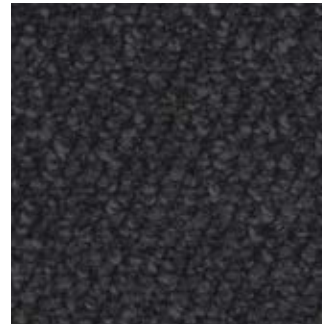

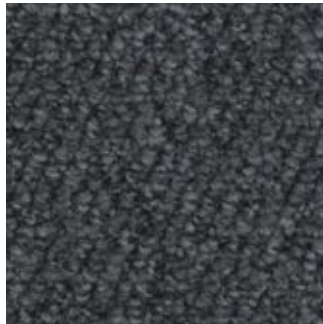

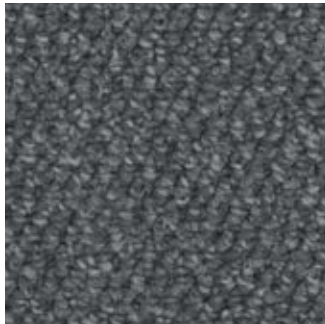

Multicolour plain broadloom or carpet tile with loop pile surface in twelve colours.

Work is part of our lives and, last but not least, our precious lifetime. Lifetime, which we want to make as optimal and pleasant as possible. The tufted AERA STRUCTURE creates a liveable ambiance that can be perfectly integrated into the interior design of the respective working environment.

AERA STRUCTURE with structure loop pile surface is available in 12 colours as multi-coloured plain broadloom or carpet tiles. The production is made from environmentally friendly and 100% recycled ECONYL® yarn, which is produced using the solution-dyed process – colourfast through and through.
