Expert knowledge

Seminars and trainings with Ari Arbeiter

Ariber Arbeiter

The background of the entire page is a blurred photograph of a seminar or conference. In the foreground, the backs of several audience members' heads and shoulders are visible as they sit in rows, facing towards the right. In the background, a man in a white shirt is standing and presenting at a whiteboard. The setting appears to be a modern, well-lit room with large windows.

Expert knowledge, straight from the horse's mouth

ANKER practice seminars with Ari Arbeiter

ANKER practice seminars provide you with expert knowledge in a clear, practical format directly from the manufacturer, thus straight from the horse's mouth. You benefit from the extensive know-how of our application technology specialist, Aribert Arbeiter, who guides you through all the important subject areas concerning production, laying and caring for textile floor coverings. This includes, for example:

- A factory visit including production, dying, surface design.
- Ground properties and preparation
- Laying technology and laying tips
- Electrostatics, sound technology etc.
- Health aspects of carpet flooring
- Environment and disposal

The seminar lasts for two days, so there will be enough time between the individual thematic blocks to share your questions and problems, and to chat and talk shop with industry colleagues in a relaxed environment. And all of this in familiar, personal surroundings, as the number of participants is very limited. That is why we advise you to register quickly, as the available places may soon be taken.

Including all-round package

– all you have to do is come

To enable you to focus on the essentials – namely the seminar itself – participation includes an all-round package, which covers all the important details. That means: we take care of your accommodation at the hotel, your food, prepare the relevant documentation for the seminar (to take home and refer to later) and also supply the necessary tools. So, all that is left for you to do, is register and come.

Alternatively: ANKER practice seminars at your company

Our seminar dates don't fit in your calendar? The journey to the ANKER site in Düren, Germany, is too complicated or too far for you? No problem. From a certain number of participants, we can also bring our practical seminars to your company. This means you get an exclusive event on site at your location, just for you and your employees. We are happy to provide you with information about the conditions and different options. Simply get in touch.

When can we look forward to seeing you at an ANKER practical seminar?

For more information or to register for the seminar, please contact Marion Botz:
